	r No(s)/Mail Date <u>1/24/05</u> .	6) 🔲 Other:						

Restriction to one of the following inventions is required under 35 U.S.C. ∋ 121:

I. Claims 1-6, 13-14, 16-18, drawn to control of refrigerant flow to a plurality of evaporators, classified in Class 62, subclass 199.

II. Claims 7-12, drawn to fan control, classified in Class 62, subclass 179.

The inventions are distinct, each from the other because of the following reasons:

Inventions of Group I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, the invention in Group I as recited in claim 13 has separate utility such as in a system that does not have the activation of the freezer fan until dt_z reduces to a first predetermined temperature difference of Group II and the invention in Group II as recited in claim 7 has separate utility such as in a system that does not have the three-way valve having three operational positions of Group I. See M.P.E.P. \ni 806.05(d).

Claim 15 will be examined along with the claims of either elected group.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and the search for each group is not required for the other groups restriction for examination purposes as indicated is proper.

Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement is traversed.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Harry B. Tanner whose telephone number is (571) 272-4813. The examiner can normally be reached 8:30 am to 5:00 pm Monday through Friday.

Application/Control Number: 10/743,626 Page 3

Art Unit: 3744

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Cheryl Tyler, can be reached on (571) 272-4834. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://portal.uspto.gov/external/portal/pair. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
